

Instructions

1. Download the Organizer Templates. Using large square pegboards complete each piece.
2. Cover each completed piece with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Do NOT over iron the beads or it will be difficult to assemble.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Continue this process until all pieces of the organizer are done.
4. Gently snap the side segments together with the bottom as shown.

5. Next slide the center dividers together.

6. Insert the divider into the organizer to complete the project.
